The Staggering Cost.

The amazing magnitude of the automobile ndustry was vividly brought out, last week. by data published by the Ohio bureau of motor vehicles showing that 4,601,120 passenger and commercial cars were produced in this country and Canada in 1928, the estimated wholesale value of which, together with replacements, accessories and tires sold by the manufacturers, was \$4,700,278,304. The wholesale value of the three items last named was given as \$1,577,478,024. Repexentative of this production, there were inreased registrations in Ohio to the number of 82,106, making the total state registration for the year 1,711,216.

Amazing as these figures are, the revenue derived from them by way of license fees and the gas tax is to us still more amazing. The revenue collected from registrations during he year was \$11,810,592.77, an increase of \$1,094,482.22 over the amount collected in 1927. Marion county's contribution to the registration fund last year, it may be said, was \$85,246.52, passenger vehicles paying \$48,878; commercial vehicles, \$25,945.43, and trailers, \$423.10.

Eleven taillions is quite a sum of money. but it is far less than a third of the burden the motorists of Ohlo are compelled to pay for the privilege of driving their vehicles over the streets and highways of Ohio. There was collected in the state last year through the agency of the gas tax the sum of \$26,sum of \$988,285.95 was refunded to those who used the gas for purposes other than vehicle, such as for aviation, stationary gas engines and dry cleaning, leaving the sum to: motor vahicle purposes, \$24,885,698.80. This latter sum, to be used for road maintonance and ropairs, was divided between the counties and the state, \$9.124,756.22 going to the countles and \$15,760,012.58 to the state.

Almost \$12,000,000 for registration and nearly \$25,000,000 for gas tax. An awful cost this total, which, to be exact was \$36 .-746,291,67. But that was last year. It will he much larger this. There will naturally be more registrations and just as naturally we may look for a greater consumption of gas on which the tax is this year a cent higher. It is the estimate of the bureau that the gas iax for the present year will return approximately \$40,006,000. To this, in figuring cost, we must add not only the cost of registration, but also the cost of cars destroyed, the cost of constring ours dumaged the cost of keeping cars in condition and the cost through loss by depreciation,

Were the financial cost all the story, we possibly might hold that this was the end of it, for we may well offset the time given to pleasure driving by the benefit to health derived therefrom, but there's a further cost, one which can not be figured in dollars and cents, the cost in human life loss and injury, of which Ohlo must bear its full share.

The figures given out by the Ohio bureau of motor vehicles show that approximately 9,000 persons were killed in motor accidents in the United States the first four months of the present year. Each month there was an increase in motor deaths over the deaths of the month preeding it, and it is expected that the complete figures for May will show a motor death toll of over 2,000. This cost staggoring one. So long as times are prosperous, we may smile at the financial cost, and hold that the benefits which ensue from it more than compensate for the expenditure. But the life loss and injuries sustained can not thus he passed over. They can not be smiled away. They constitute two great price to be borne. Some way must be devised to cut down the life loss and injuries suslained as a result of motor accidents. That they show a steady increase, month by month, is a repreach to the land.

How it would add to the peace of the world were the hudding genius of our young musicious developed on oboos rather than b flat cornels.

If we got the advance potices of Mrs. Coolidge's forthcoming magazine article correctly. Mr. Coolidge is a decided stickler lot ples like grandmother used to bake, which again shows how badly the country misjudged him before it discovered how delightfully human he really is,

The New York papers tell of the awful suffering from the heat to which the people of the metropolis was subjected when the city swottoned with the mercury at nighty-five deof the metropolis was subjected when the city grees. Think of the horrors New York would the sides of the neck, shoulder blades and under the head of the kneck. uffer were that city to experience weather reasonably warm!

Naturally, there is bound to be speculation egarding that resolution offered in the couneil of the League of Nations by the Chilean delegate, Eurlque V. Echiburu, thanking the United States for its aid in solving the Tarna-Arica territorial dispute. Passing a resolution like that would be a lot like gall and wormwood to the league.

The food experts now say that the cucumber has been grossly maligned; that is tall of vitamin C, which is held to be nature's aid in building up physical resistance to disease germs, and produces pep. The cucumbor has long been credited with producing a sensation peculiar to itself, but we never recall it having previously been denominated pep.

I am gratified by the following letter. It shows that users of slang and lar language have more critical ears than they wit of listening to and judging the poor quality of their conversation:

Here was an article that expressed more aptly than I could my personal belief on the subject: I have felt that you would accept in the spirit given, this expression of commendation from one of my line of work. It seems to me that the growing use of signs in severy day talk, and especially among those seeking education and those of reduced environment should have a disquisting effect upon instructors and educators.

"I have quite an opportunity to observe those whom one expects to express themselves the expression in conversation has gone the way of the dinner coat. We don't want to take palins any more. grace in public deportment seems a lost art. Even the class of people whom we believe to have enough leisure to employ these qualities are almost as strange to them now as the others. To my humble way of thinking, the growing use of slang in conversation is just one of the many symptoms of the deterioration of society generally. It is a labor of love for Cornwell, who at the pinnacle of his career gave up an annual income of more than \$75,000 for the growing use of slang in conversation is just one of the many symptoms of the deterioration of society generally. My Boston friend has the making of My Boston triend nat the manage of public opiniosopher. I have often noted at public dinners that waiters are among the most attentive and appreciative listeners, and know when a good speaker gets on his legs. But how rare are the good speakers, now! It sometimes seems to me that even lecturers when the contraction of the contraction sometimes saems to me that even lecturers who ought to be aware what they lose by it, cultivate a careless, slouchy manner and an equally rough and careless use of language, and cheapen their speech purposely, choosing the words of the ringside and the bleachers, and violating propriety, the dictionary and the grammar with equal zeet. This is a part of the universal shriek for "freedom," meanof the universal spries for "freedom, meaning liberation from all law, all rule, all discipline. Concentrate Hitting

It was by concentrating its hitting in one inning that won for the Eagles. In the sixth frame the Marion club halted around making five bigges pool for as many runs.

Balloud had a great day at the plate getting three hits in four times up. One of them was a double. The slugging honors for the Cuban nine were well split up with Simpson, Mitchei, McDuffe, Aniche, Hooks and Funny each toughing Good for two hits. Thery lagle, with the exception of Barcon, gat one hit.

In the first two busings the Gulans were retired as fast as they could walk up to the plate Balloud led off for the Eagles in the first inning with a single but got no phace. Scoring Stars in Third

The third found Good striking out the first man up and Funny singled. The Cubin pitcher; Cox, funned and Williams hit a wicked double to centrer and, just to be michful, Funny second from first. In their half of the frame, the Lagles creamed up tha count with Tomulre leading off with

ning.

One run was scored in the fifth giring the southern has a three-run lead over the locals. With two down, Simpson shot a short one in center Simpson and a soor or or or or and was subsanced to right. McDuffic connected squarely and made two bases scoring Simpson. Fast fielding by McCann held Milchel on third where he died. Again three Eaglestead Co.

Three Teams Practically

BY LES CONKLIN

S.T. LOUIS, Pittsburgh and Chicago are practically dendiceded for the lend in the national league race this morning, and the fourthplace Giants are charged with only one more defoat than the pace-setting Cardinals, you couldn't get a much more exciting scramble by dropping a two-bit piece on the Bowery.

The Giants seek the pace-setting formers and a pair of singles, and Mcl. Old. smacked his fourteenth homer.

The Giants seek.

The Athletics' winning streak of the straight victories was shattered winning a two-bit piece on the Bouery.

The Giants, who usually have to play a lone hand in intersection! batter, reveived unexpected help from the three weaker Eastern outfits—Brooklyn, Philadelphia and Buston—on the western trip just concluded. Sporadic outbursts on the part of the latter trie halted the march of the Phillies handed the Cubs a 7 to 2 shellacking.

Soper Talks to Wesleyan Grads

DELAWARE, June 17-The moimportant function of the Christian college today is to keep alire the spiritual in man, declared President Edmund D. Soper in his address at the baccalcureste service, the first major erent of Ohio Wesleyat univer-sity's eighty-fifth annual commence-ment, here Sunday.

The clash between religion and hu-

manistic philosophy which denies the is the great conflict in the spiritual world of the present, Dr. Soper contended. Compared with this conflict the controwers; between modernism and fundamentalism is reduced to

triviality.

Present-day humanism or materials iem finds its expression through euch intellectuals as Walter Lippmann, Prof. Roper_Sellars, Prof. Harry El-mer Barnes and Bertrand Russell, through the Russian soviet's attempt at secularisation of that nation, and through the anti-Christian morement in China, Dr. Soper pointed out. It is seen also in the extent to which

labor, is divorced from the church lathe western world.

Dr. Benjamin L. McEltor, professor of Applied Christianity at Ohio. Wesleyan, a friend of the Whitlock family, represented Brand Whitlock in presenting the is blet to the univer-sity and in reading a tribute to his father written by the son, Judge Isaac N. Abernethy, Circle-

Annual Report Shows

Production Increase
MARTSVILLE, June 17—The annual report on the local plant of the Nostle's Food Company shows that the plant is now operating at full capacity and 's receiving an average of 25,000 pounds more milk per day than it was a year ago. The preduction now is higher than at any time since the World war, partially due to the fact that in addition to the regular purchases, the company is busing special quality milk for the manufacture of baby food, and partially due to the many new improvements in Production Increase to the many new improvements in machinery and otherwise.
